FOREWORD

A sound information system is an essential pre requisite for proper planning. Directorate of Economics and Statistics, being the nodal agency of all statistical activities in the Union Territory of Pondicherry collects, compiles and disseminates the data on the Socio-economic charecteristics of the U.T. of Pondicherry in the publication 'Abstract of Statistics'. The present issue of the publication is the Twenty Sixth edition in the series.

The Abstract of Statistics contains detailed time series data on development indicators for various Socio-Economic data users. All sorts of socio economic data are arranged into 25 chapters and each chapter has an explanatory note giving the description of tables, methodology of data collection and its coverage. The data are given generally for ten years and in some cases for three years and the latest being 1997-98. The Directorate of Economics and Statistics has made concerted efforts to update as well as to make the present issue more meaningful and useful by effecting improvements in the content and pictorial presentation. The new features added in the present publication are religion-wise population, population by age group consumption of fertilizers, production of milh and eggs and estimation of State income and percapita income as per new series with 1993-94 as base. Graphical illustrations of data have also been incorporated at the end of every chapter.

Publication Division, Directorate of Economics and Statistics, is responsible for data collection, maintenance, updation and preparation of charts, incorporation of pictures and weneration of the manus ript in camera-ready form.

I appreciate the efforts taken by the Directorate officials for reducing the time lay considerably in the release of Abstract of Statistics containing micro level data which is required for planning. I hope that users in general and those in the Government especially planners would be binefited from this publication.

PREFACE

The current issue of the Abstract of Statistics provides comprehensive information on the socio-economic characteristics of the Union Territory and is intended to serve as an important source material for statistical time series of different sections of the union territory of Pondicherry.

This issue is Twenty Sixth in the series and information included in the issue pertains to the calendar years 1996, 1997 and 1998 or financial agricultural years 1995-96, 1996-97 and 1997-98. The publication gives region-wise statistical particulars and it is one of the most useful publications of the Directorate.

This Directorate acknowledges with gratitude—the co-operation extended by different Heads of Departments and the Government and Non-Governmental Agencies in making available the statistical data in time for this publication.

I also place on record my appreciation to the officers and staff of the Publication Division who have spared no efforts to effect improvements in the coverage and presentation of the publication.

I hope that this publication will be of immense use to the Planners, administrators and research workers in understanding changes taking place in the Socio-economic scenario of the State.

Suggestions for improvement of the publication are welcome.

This part of the Abstract of Statistics presents the Statistics relating to rainfall, temperature and relative humidity.

TABLE 2.1:

This table gives the region-wise annual rainfall from the year 1986-87 to 1997-98 in millimetres and mothes. It also gives the region-wise normal rainfall which is the average of 30 years data (1960-61 to 1989-90).

TABLES 2.2 TO 2.5 :

These tables give the season-wise rainfall data from the year 1986-87 to 1997-98 for the regions Pondicherry, Karaikal, Mahe and Yanam respectively alongwith the season wise normal rainfall.

TABLES 2.6:

This table presents the maximum, minimum and mean temperature recorded at Pondicherry in degrees, celsius and farenheit. It also presents the relative humidity recorded at 8.30 and 17.30 hours. The data on temperature and relative humidity for Pondicherry are being collected from the India Metereological Department, Chennai.

"his section is devoted to Medical and Vital Statistics. Information about the number of hospital dispensaries, beds and medical personnel have been furnished by the Directorate of Health and Lamily Welfare Services. Data regarding number of births, deaths by causes and age groups have been compiled from the monthly returns, sent by the Municipalities, Commune Local Administration the Panchayats Department, Pondicherry with effect from 1979 Shows the distribution of live-birth, still-birth and onwards

TABLE 6.1 & 6.1a :

Shows the number of Hospitals, Dispensaries and b**e**ds

TABLE 6.2 :

Shows the number of medical personnel.

TABLE 6.3 & 6.3a :

Furnish information regarding progress of B.C.G. vaccination in each region.

TABLE 6.4:

Shows the number of cases treated in Hospitals and Dispensaries.

TABLE 6.5 :

Gives information regarding birth control statistics

TABLE 6.6 :

deaths by regions.

TABLE 6.7:

Presents live-birth rate and death rate per thousand population and still birth rate per thousand live and still births.

The formulae used are as follows

Live-birth rate/death rate per1,000 population.

Total live births/deaths x 1,000 Estimated mid-year population

2. Still-birth rate per 1,000 live and still-births

Total still-births x 1,000

Total live-births+Total still births

Infant death rate
 Total infant deaths x 1,000
 Total live-births.

Maternal mortality rate
 Total maternal deaths x 1,000
 Total live-births.

TABLE 6.8a, 6.8b & 6.8c :

Deal with number of deaths due to various causes.

TABLE 6.9a, 6.9b & 6.9c :

TABLE 13.1 to 13.11:

Present results of the Census of Government Employees, all the employees working in the offices of the Pondicherry State Government and the employees of the Local bodies, Autonomous Total bodes and the employees of the Central Government Offices stationed in the Union Territory of Pondicherry have been included. For this densus, those who are on the pay rolls of the establishment have been taken as regular staff. The staff paid from contingencies, work charged personnel and those employed on daily wages have been classified as non-regular staff. Casual daily rated labour employed for less than a month and contractor's labour have not been included. Those who have been confirmed and hold substantively the post against which they are

shown on date of census, have been taken as permanent employees though working temporarily or officiating in any temporary post on the date of census, have also been taken as permanent. All those who are not confirmed and do not hold substantively any post on the date of census have been taken as temporary persons appointed in leave arrangements and temporary employees officiating in permanent posts have been shown as temporary. Basic pay includes personal or Special pay, if any, but excludes dearness allowance and other allowances. The Fifth Pay Commission pay scales are adopted since the year 1996
